# Topics

ICAI aims to bring together researchers and practitioners interested in all topics related to informatics. Submitted papers should be related to one or more of the main topics proposed for the conference:

- Artificial Intelligence
- Bioinformatics
- Business Analytics
- Cloud Computing
- Data Analysis
- Decision Systems
- Enterprise Information Systems Applications
- Gamification and Serious Games
- Geoinformatics
- Health Care Information Systems
- ICT-Enabled Social Innovation
- Interdisciplinary Information Studies
- Interaction Design and Usability
- IT Architectures
- Learning Management Systems
- Mobile Information Processing Systems
- Robotic Autonomy
- Social and Behavioral Applications
- Software and Systems Modeling
- Software Architectures
- Software Design Engineering

# Submission

Authors must submit an original full paper (12 to 15 pages) that has **not been published previously**. All contributions must be written in English. Authors should consult Springer's authors' guidelines and use their [proceedings templates](#), either for LaTeX or for Microsoft Word, for the preparation of their papers. We encourage Overleaf users to use Springer's proceedings template for LaTeX.

All submissions will be reviewed by 3 experts. **Authors must remove personal details, acknowledgments section and any other information related to the authors' identity.** In addition, all submissions will be screened by Turnitin. The first anonymous version must be submitted in PDF.

ICAI 2020 proceedings will be published with Springer in their *Communications in Computer and Information Science (CCIS)* series.

Selected papers will be invited to present an extended version of their work to the following journals:

- [Smart Learning Environments](#)
- [ParadigmPlus](#)
